DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Response to Amendment

2. The amendments to the specification of the disclosure in the submission dated 3/20/06 are acknowledged and accepted. In view of these amendments, the objections to the drawings and specification in Sections 5-7 of the Office Action dated 1/18/06 are respectfully withdrawn.
3. The amendments to Claims 1, 3, 5-7, 10, 12, and 15 in the submission dated 3/20/06 are acknowledged and accepted.
4. The cancellation of Claims 2, 8-9 in the submission dated 3/20/06 is acknowledged and accepted.
5. In view of the amendments made to the claims above, the objections to the claims in Section 8 of the Office Action dated 1/18/06 are respectfully withdrawn.

Drawings

6. The replacement formal drawings were received on 6/27/05. These drawings are now acceptable in view of the amendments made above.

Response to Arguments

7. In view of the amendments made to Claim 1 to additionally include the limitations of Claims 2, 8-9, the rejections in Sections 10-14 of the Office Action dated 1/18/06 are respectfully withdrawn.

Election/Restrictions

8. Claim 1 has been found allowable. Claims 3-4, 11-15, previously withdrawn from consideration as a result of a restriction requirement, require all the limitations of an allowable claim. Pursuant to the procedures set forth in MPEP § 821.04(a), **the restriction requirement among inventions I-V, as set forth in the Office action mailed on 10/4/05, is hereby withdrawn** and Claims 3-4, 11-15 are hereby rejoined and fully examined for patentability under 37 CFR 1.104. In view of the withdrawal of the restriction requirement, applicant(s) are advised that if any claim(s) including all the limitations of an allowable claim is presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Allowable Subject Matter

9. Claims 1, 3-7, 10-15 are allowed.

REASONS FOR ALLOWANCE

10. The following is an examiner's statement of reasons for allowance:

Claim 1 is allowable over the cited art of record for at least the reason that the cited art of record fails to teach or reasonably suggest a removable optical device including an electric drive motor arranged in a housing that encloses the drive motor, as generally set forth in Claim 1, the device including, in combination with the features recited in Claim 1, the housing having at least one fill opening through which the sealing compound is capable of being inserted in the housing after the mounting of the drive motor in the housing. Claims 3-7, 10-15 are dependent on Claim 1, and hence are allowable for at least the same reasons Claim 1 is allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
